

## Hewlett-Packard Seismic Upgrades

Corvallis, OR

At Hewlett-Packard's Corvallis site, JH Kelly staff members have cultivated a relationship utilizing focus, accountability, communication, and teamwork. Through that approach, JHK has become a trusted partner for both Andersen Construction and Hewlett Packard.

During the ten years at Hewlett-Packard's Corvallis site, JH Kelly crews completed multiple projects with varying scopes. Some examples are truck dock modifications, irrigation repairs, skid fabrication, and work with the acid exhaust.

In addition, the staff has performed numerous maintenance jobs in the following areas:

- Nitrogen Lines
- ICW Lines
- Ultra High Purity Work
- Tool Move-In & Installations
- Exhaust Systems
- Vacuum Pumps
- Natural Gas Lines
- IWW Upgrades
- Breathing and Compressed Air Lines
