

Doyon Drilling Modules

Vancouver, WA

JH Kelly was part of a construction team building the most advanced mobile drill rig in the Alaska North Slope. This work over rig is owned and operated by Doyon Drilling and leased to BP (British Petroleum).

JH Kelly furnished all mechanical services including equipment setting, piping, HVAC and structural erection of the module components. The complete modules were barged to Prudhoe Bay, Alaska when completed. JH Kelly assisted in start-up operations at the drill site.

Services provided:

- Equipment setting
- Piping
- HVAC
- Structural erection of module components
